Data in, Insight out

Established in 1990, UniPix Pty Limited is a dynamic and successful Australian company that develops, distributes and implements the dual award-winning suite of software known as Online Advantage. With a high quality team supporting over 750 sites worldwide, Online Advantage has enjoyed steady growth of its client base throughout Australia and the rest of the Asia Pacific region. We believe our price performance, integrity and quality of product will ensure our continued success.

UniPix and Online Advantage Value Proposition

- ❖ **The peace of mind** that comes from choosing a proven solution Online Advantage.
- ❖ **UniPix is a financially strong company** that is here to stay.
- ❖ **Online Advantage is a well-established solution** that will continue to be developed.
- ❖ **Over 15 years of service excellence** means you can rely on us to support you.
- ❖ **UniPix supply their customers** with the program source code.
- ❖ **You deal direct with the developers** of Online Advantage.

Day-to-day support

Whether you choose our world class hosting solution or manage your own internal infrastructure, our Support Desk Team are ever ready to take your urgent calls for assistance with day-to-day problems. This experienced team has wide ranging skills that enables UniPix to provide responsive and effective support for both your Online Advantage solution and related system technology including hardware, network and desktop applications. Our hosted customers enjoy fixed price computing that includes Support Services. Support Services are provided to our other customers on a fixed fee or a casual time and material basis depending on their budget and requirements.

Don't just take our word for it, many satisfied Online Advantage customers will be happy to discuss why they chose Online Advantage over the competition.

from

UNIPIX

More than day-to-day support

Our UniPix Consulting Services cater for those activities which go beyond the typical day-to-day support service that is provided by our Support Desk.

UniPix has a growing team of senior business and IT professionals who have worked with the Online Advantage product for over 15 years. This experienced and reliable team enables UniPix to provide an extensive range of business, technical and support services to clients.

Business analysis and system implementation

Our Systems Consultants are also Business Analysts and collectively they have over 150 years experience analysing business processes and problems to develop the best and most efficient business solution for your particular needs.

As your business grows, our Consultants are available for ongoing reviews to ensure that your changing needs are met and that you continue to maximize the return on investment in your Online Advantage solution.

Systems design and customised development

The UniPix team also includes Systems Analysts and Programmers. This is a team of reliable professionals that enables UniPix to deliver customised solutions to meet any unique business requirements.

This team follows a proven method of change control designed to maintain the UniPix reputation for delivering reliability and quality. Finally, this team works closely with your nominated Systems Consultant to ensure cost effective and efficient delivery of customised solutions.

Training services

Training improves staff efficiency and productivity and it can help speed up the achievement of corporate objectives. To keep your staff up-to-date on the ever increasing features and functions of Online Advantage, UniPix offers a selection of regularly scheduled training courses. Courses are conducted at our facilities or at your premises as required. We also provide customised courses to meet your specific training needs.

Our commitment . . .

As a leading Australian developer and supplier of business software we are focused on acquiring a deep understanding of our customers' industries and business requirements. We pride ourselves on delivering proven, cost-effective and highly productive business solutions.

UniPix is dedicated to continuous development and enhancement of Online Advantage and taking advantage of new and proven technologies to provide reliable business solutions for growing companies.
